

**Data Science**

**Machine  
Learning**

**ML OPS**

**Open jobs  
positions analysis**

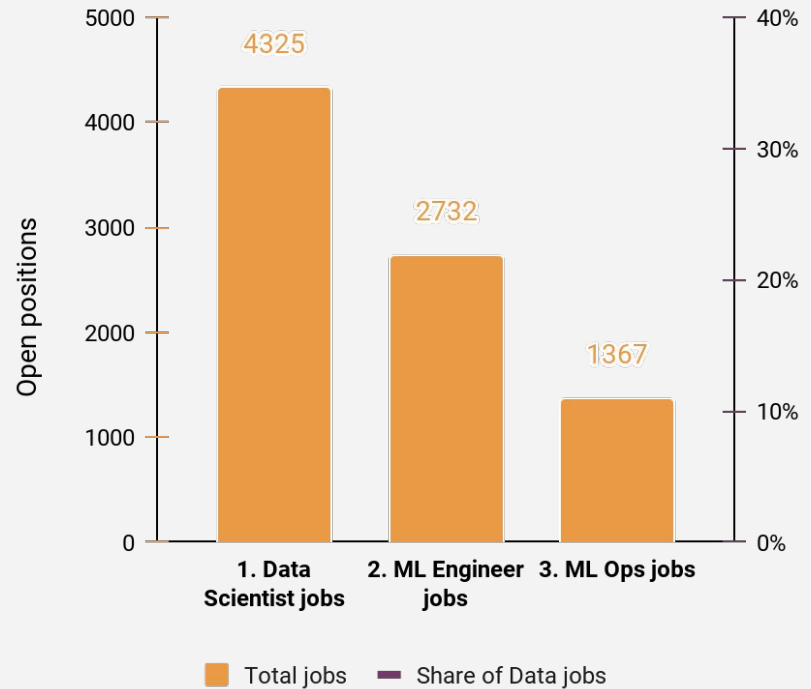

# Report summary

Date of Report: 2023-09-19

## Scope of data analyzed in the report:

- Job groups: **Data Science jobs, ML Engineer jobs, ML OPS jobs**
- Total number of job openings: **9261**
- Total number of companies: **1605**
- Total number of tokens in job descriptions: **11 545 729**
- Countries: **89**
- Cities: **762**

# Notes:

## Job groups definitions:

- **Data Scientist jobs:** Jobs with the following keywords in the Job Title: 'data science', 'data scientist'. Does not include ML Engineering nor ML OPS jobs jobs.
- **Machine Learning Engineer jobs:** Jobs with the following keywords in the Job Title: 'ml engineer', 'machine learning engineer', 'developer in ml', 'developer in machine learning', 'Software Engineer - Machine Learning', 'machine learning', 'ml/ai', 'ml'. Does not include Data Science nor ML OPS jobs.
- **ML OPS jobs:** Jobs with the following keywords related to ML OPS: 'ml ops', 'ml ops', 'ml operations', 'machine learning operations', 'machine learning ops', 'data ops', 'dataops'. The keyword search was both in the job title and job description. Does not include Data Science nor ML Engineering jobs.

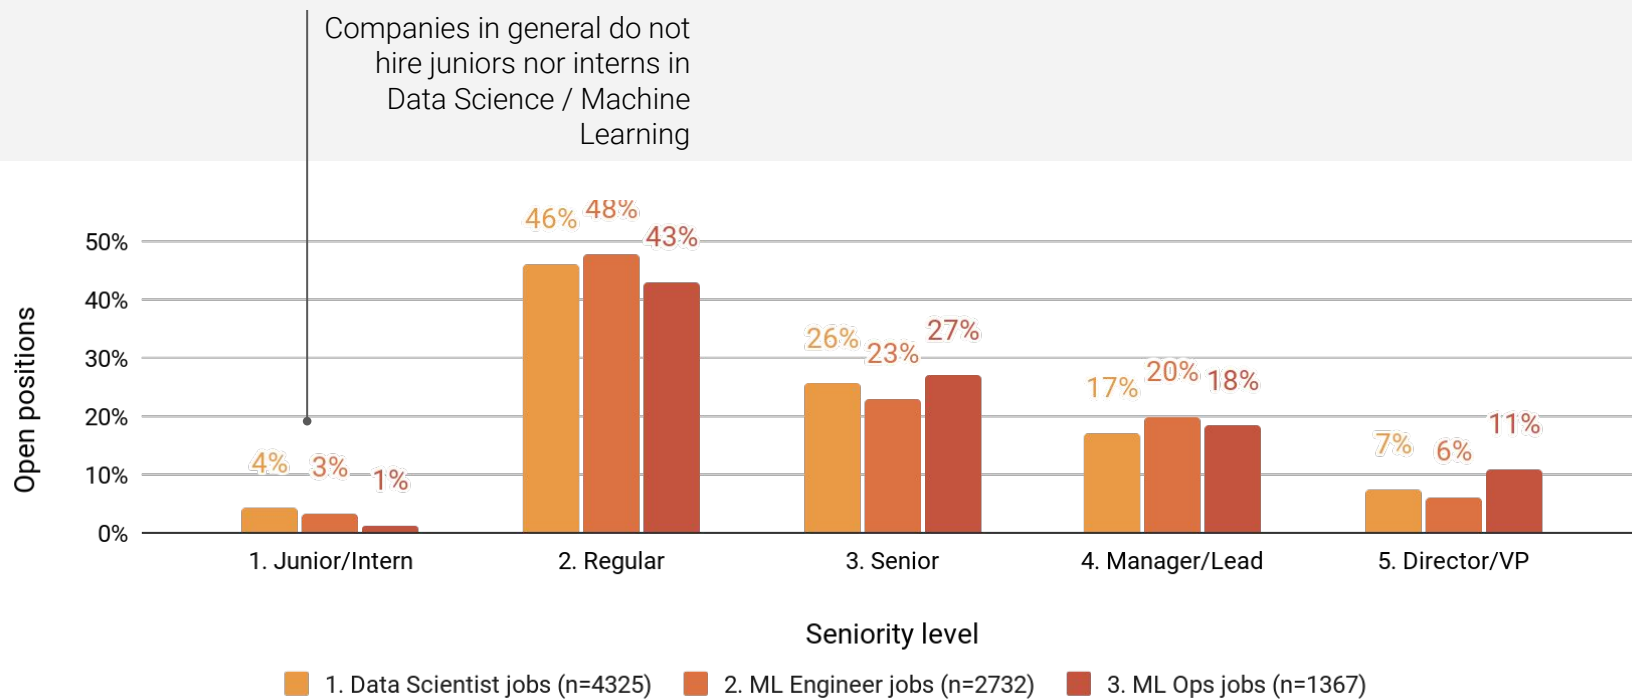

## Data collection:

- Internet crawl across ca. 24.000 companies, including all Fortune 100 companies.
- Time span: Last 90 days from the Report Date.
- The quoted salary data is taken directly from the job descriptions.

# Share of remote positions

# Offered annual base salary in US by seniority level

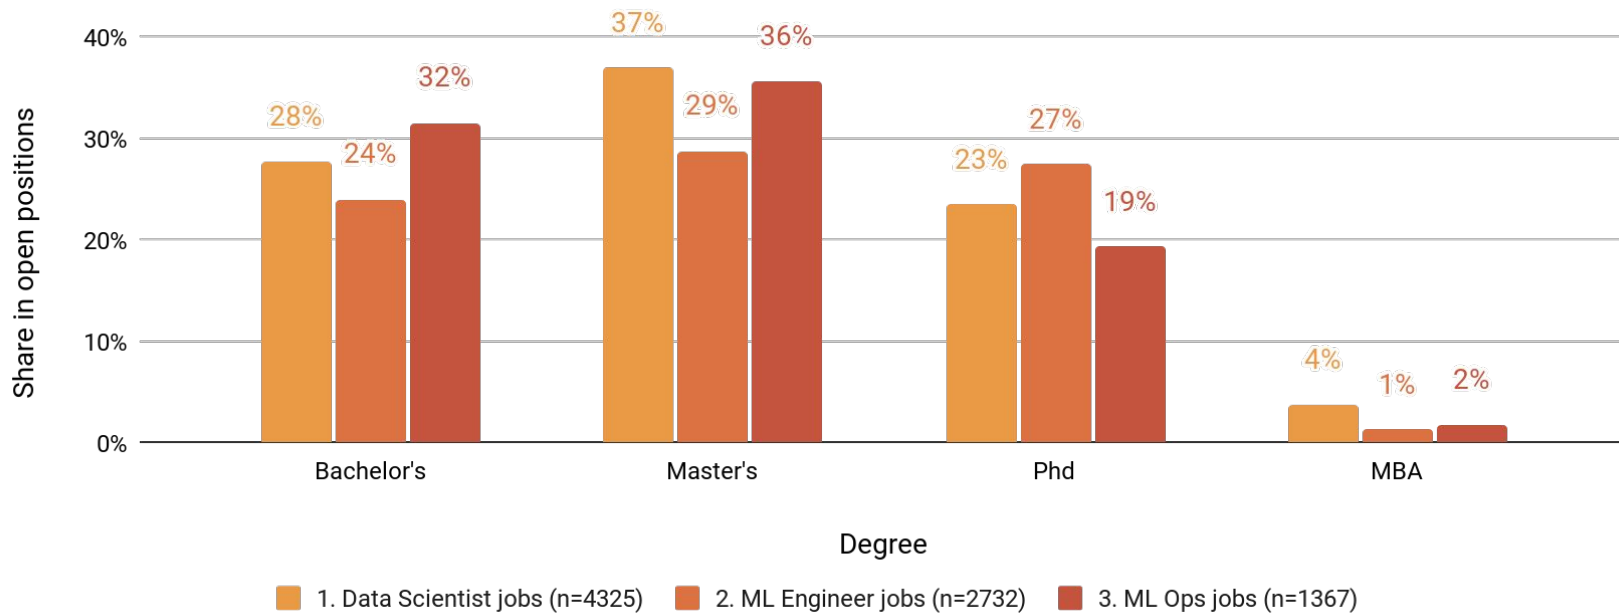

## Median midpoint salaries offered in open job positions in United States

Note: Salaries in job postings are typically quoted as ranges (low-high). For the purpose of this analysis and the calculation of averages per cohort, the ranges were converted into single numbers (midpoints) using the following formula:  $(low + high)/2$

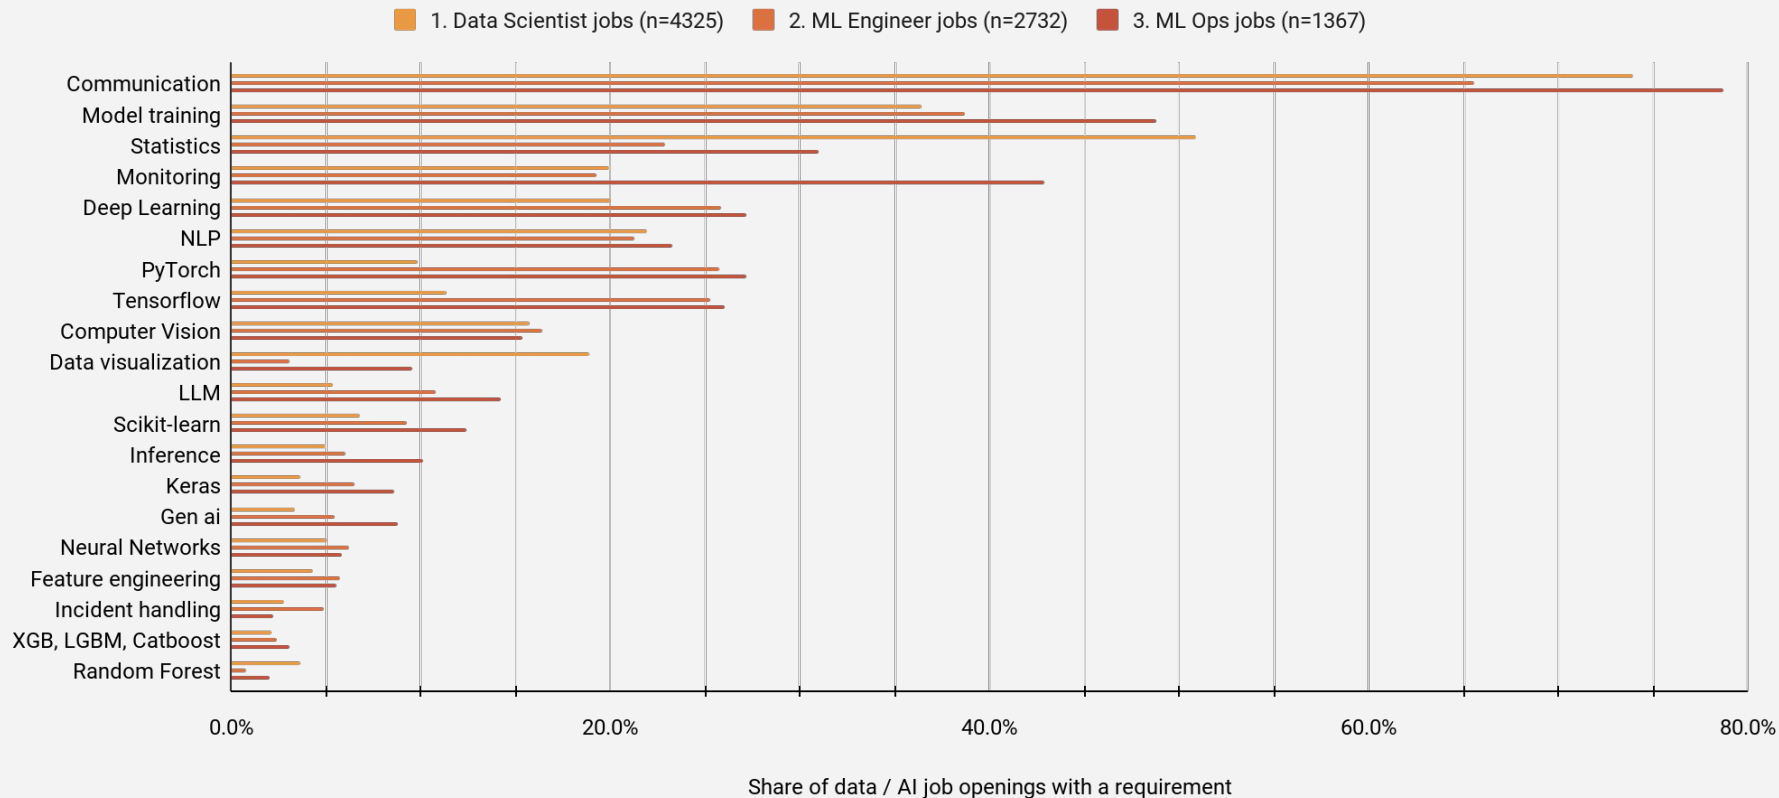

# Required Education

# Required experience by programming languages

# Required skills for Data / AI jobs

# Required experience by database technologies

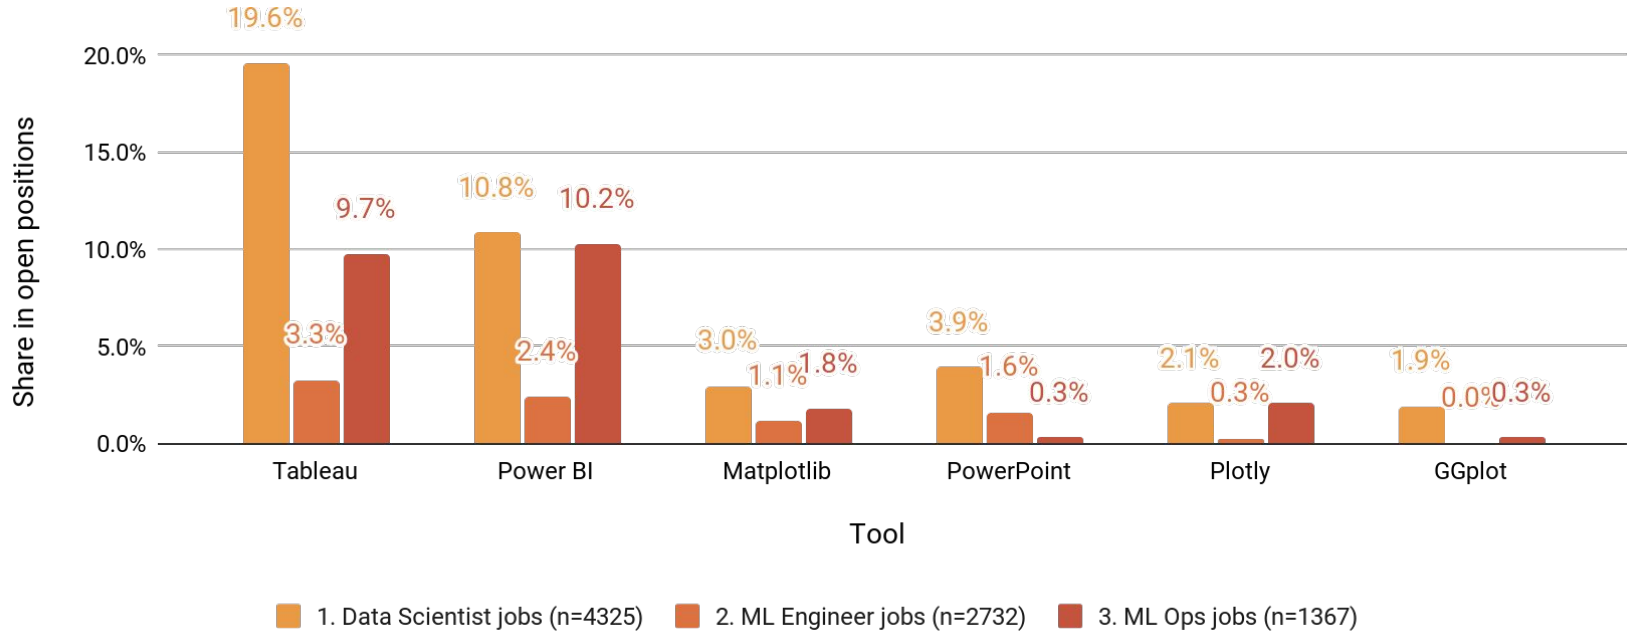

# Required experience by Cloud technology

# Required experience by Visualization Tool

# Required experience by IDE
